### Description

**DESCRIPTION**  
The H.C.B-B5006 45" Flaring and Cutting Kit is a complete set of tools for working on air conditioning and refrigeration systems. It includes a flaring tool, a cutting tool, and several sockets and adapters. The kit is designed for easy use and is suitable for both professional and DIY users. The flaring tool is used to create a flare on the end of a tube, while the cutting tool is used to cut the tube to the desired length. The sockets and adapters are used to connect the tubes to the system components. The kit is made of high-quality materials and is built to last.
