Description 

Product description
The H.C.B-A1336 Manual Lining Puller Set is a professional tool used for the removal of brake linings from drum brakes. It consists of a main frame, several numbered components (10-18), and optional parts (16, 17, 18). The set is designed for efficient and safe removal of brake linings, ensuring proper maintenance of the braking system. The main frame is made of heavy-duty black metal, and the numbered components are made of green plastic. The optional parts are also made of green plastic. The set is easy to use and is suitable for a wide range of vehicles.
