Description

DESCRIPTION
This tool kit is used for the removal and installation of the crankshaft rear oil seal of Cumins Leadca 3.5 tons. It consists of a large black circular tool and a set of eight screws. The tool is made of high-quality steel and is designed to fit perfectly over the crankshaft. The screws are used to secure the tool in place. This tool kit is a must-have for anyone who works on Cumins Leadca 3.5 tons engines.
