### Description

**DESCRIPTION**  
This fixture is used to remove and install the dual clutch transmission (DCT) on Ford vehicles. It is a heavy-duty steel fixture that fits over the transmission and provides a secure grip for the removal and installation process. The fixture is designed to be used with a hydraulic press or a similar tool to apply the necessary force for the clutch replacement. It is a professional-grade tool that is essential for anyone working on Ford vehicles with a DCT.
