Description

**NEW**

Product description: This tool is used to remove the lower control arm ball joint on ISUZU vehicles. It is a heavy-duty metal tool with a threaded rod and a U-bolter. The tool is designed to fit over the ball joint and the U-bolter, and then the threaded rod is tightened to pull the ball joint out of the control arm.

Product features:

- Heavy-duty metal construction
- Threaded rod and U-bolter for easy removal
- Designed specifically for ISUZU vehicles
