### Description

**DESCRIPTION**  
The H.C.B-X1207 Porsche engine supporter is a heavy-duty tool designed to hold the engine or transmission in place during removal and installation. It features a curved, hook-like shape that fits around the engine/transmission and is secured with screws. The tool is made of high-quality steel and is built to last. It is a must-have for anyone working on a Porsche engine/transmission.
