Product Specifications /Features :

*The kit includes a range of long and short identities, bolt, C-ring, replaceable nut, key, screw, washer, extending block, claw, and center pushing rod.

*This kit is used when the crank shaft pulley and camshaft pulley get stuck.

*The bolt , C-ring, replaceable nut and key are designed to insert into the identity for removing and installing the Crank shaft pulley and camshaft pulley.

*The screw, washer, extending block, and claw are designed to fix on the extremities of the identity.

*The center pushing rod is to fasten the replaceable nut and the key.

*Special bolt with rolling bead is designed to protect the C-ring from being broken.

*The long and short identities, center pushing rod, and screw are universal according to the size of crank shaft pulley and camshaft pulley while operation.

*The extending block could extend the length of the claw, so as to protect the crank shaft pulley and camshaft pulley for operation.

*The bolt and groove of bolt's hole are replaceable while broken instead of replacing identity itself.

*The long and short identities are time and money saver.
